Re: Shelf Life Extension Notification for COVID-19 & Flu Test Kits

Dear Valued Customer,

This letter is to confirm that the shelf life for the Lucira COVID-19 & Flu device has been extended from 6 months to 9 months.

As of March 8th, 2023, Lucira Health completed the stability testing that yielded cumulative data in support for this increase. In addition, the U.S. Food and Drug Administration (FDA) authorized the shelf-life extension to 9-months on March 22nd, 2023

Thus, while the expiration date shown on the kit box label is in process to be updated to reflect the 9-month shelf-life, the following LOT numbers now have an extended shelf life as shown on the following table:

Lot Numbers	Printed Shelf Life (6 months)	Extended Shelf Life (9 months)
