

Syphilis

Health Check™

Rapid syphilis testing, made simple.

Syphilis Health Check™ - the Rapid *Treponema* Antibody Test

Results in 10 minutes for prompt diagnosis and intervention

Highly accurate - sens. of 98.0%, spec. of 97.2%, detects both IgM and IgG

Can be easily read in all settings, no need for a reader

Can be used on people as young as 13 years old

Multiple tests can be run concurrently

CLIA-Waived, millions of tests used

Proven Results

- Studies have verified the accuracy at all stages of infection including latent, which provides the ability to detect infection in pregnant women for identification of potential congenital syphilis at every trimester
- More than 1,000 sample results from various sites were studied to confirm accuracy and align with the CDC syphilis algorithm, using RPR as a comparison

"We LOVE Syphilis Health Check rapid tests and have found that they have **significantly increased the number of people** that we have been able to initiate treatment quickly and effectively"

- Customer from Madison County, Indiana
