

Small size,
big choices.

MiniPet[®]

The world's best selling micropipette has a lively new look. Compact and engineered for precision, the sturdy MiniPet[®] air-displacement micropipette comes in a range of volumes

and now offers custom color variations. Add your name and logo or custom packaging to the MiniPet[®] to make an eye-catching addition to a diagnostic kit.

 **TRICONTINENT**[™]
HANDLING LIQUIDS...PRECISELY

Functional

The MiniPet® is designed to handle thousands of pipettings using generic disposable air displacement tips. Available in volumes that range from 5 µL to 200 µL, the MiniPet® provides precision, accuracy, and affordability for routine applications. Durable molded plastic stands up to the rigors of the lab, assuring accurate measurements. Precision and accuracy specifications vary depending on the volume dispensed, however are comparable or better to the more expensive pipettes.

Stylish

When we first introduced the colorful MiniPet® at a trade show, it created quite a stir. The range of color options is limited only by your imagination. Simply supply us with a color sample or PMS number. Combined with custom pad printing of your company logo, name, or other message, the MiniPet® is a vivid addition to diagnostic kits and other applications.

Versatile

The MiniPet® is available to retail customers as well as OEM customers in quantities of 1000 or more. Orders can be packaged in bulk or in custom packaging that you designate. The MiniPet® is offered separately or with disposable tips. Options include a detipper bottle for convenient tip disposal.

“...a memorable
addition to a
diagnostic kit.”
